FY18 Community Services Plan Overview

The 2017 Legislative session passed Senate File 504 which instructs MHDS Regions:

- To convene a Stakeholder Workgroup comprised of representatives from hospitals, the judicial system, law enforcement agencies, managed care organizations, mental health providers, crisis service providers, substance abuse providers, the national alliance on mental illness, and other entities, as appropriate, to meet on a regular basis effective 7/1/17. The desired outcome of this Workgroup is to create collaborative policies and processes relating to the delivery of, access to, and continuity of services and supports for individuals with mental health, disability, and substance use disorder needs;
- To review funding resources currently available (including but not limited to regional fund balances, Title XIX, and other funding sources) and to partner with other regions to provide needed services and supports to individuals with mental health, disability, and substance use disorder needs; and
- To identify the following Community Services Plan components
 - Planning and Implementation Timeframes and Assessment Tools for determining the effectiveness of the plan in achieving the Department's identified outcomes for success
 - Financial Strategies to support the plan

A. Stakeholder Workgroups

Mental health crises are costly in human, medical and financial terms. To be more effective, we need to work together. Mental health crises involve many players. A crisis may begin in a community home, involving direct support providers, managers and case workers; bring in law enforcement or crisis service specialists; and be routed to jail, an emergency room or a crisis observation center. That path may be influenced by insurance, regional decision-makers, or community-based providers. All these professionals play their part.

On June 28, 2017, Mental Health and Disability Service (MHDS) Regions and the Iowa Law Enforcement Academy (ILEA) hosted a Crisis Prevention & Mental Health Summit Roundtable. Brought together was a broad variety of professionals who don't usually get to talk to each other to begin discussing and brainstorming ideas for improvement. We identified our goal as: Iowans with behavioral needs will be supported in their community from a public health not a public safety perspective. Collaboration was a common theme in our discussions:

- **Resource Collaborations - Training** (develop common language across stakeholder groups)
 - Mental Health First Aid (Family, Community Providers, Regions, MCOs, Law Enforcement, Hospitals)
 - Crisis Intervention Training (Community Providers – information/support, Regions, MCOs, Law Enforcement)
 - C3 De-Escalation (Community Providers, Regions, MCOs, Law Enforcement, Hospitals)
 - Trauma Informed Care (Community Providers, Regions, MCOs, Law Enforcement, Hospitals)

- Co-Occurring (Community Providers, Regions, MCOs, Law Enforcement, Hospitals)
- SAMHSA Emails (Community Providers, Regions, MCOs, Law Enforcement, Hospitals)
- Police & MH Toolkit (Community Providers, Regions, MCOs, Law Enforcement)
- **Resource Collaborations – Community Supports** (continuing to build community capacity)
 - Tele Psychiatry -Mobile Crisis Response Teams/MH Assessment -Jail Diversion/Re-Entry -Open Bed Tracking System
 - Crisis Stabilization -Crisis Observation -Transition Homes -Sub-Acute Supports -Substance Abuse Services

Northwest Iowa Care Connections then held regional stakeholder meetings on July 25th, August 29th, and September 13th, to discuss our region’s specific plans included in this Community Services Plan to address the complex needs of individuals presenting in our hospital emergency departments, inpatient mental health hospitals, and jails. Please see Appendix A for a list of invitees and those who participated in one, two, or all three stakeholder meetings.

B. Statewide Strategic Direction

The Department of Human Services released a report on February 22, 2017 which identifies two problem areas with Iowa’s Mental Health System for Individuals with complex needs. The passage of Senate File 504 legislatively mandates the Mental Health and Disability Service Regions to identify strategies to address these issues as follows:

Problem #1: The absence of a community plan and a fragmented approach in serving individuals, particularly those with complex needs.

Appropriate services for individuals with complex needs need to be readily available statewide. To achieve this, the Regions will work with stakeholders and various funders to build the service continuum and ensure people receive continuity of care through a collaborative, community-based approach.

Goal: Engage the community and develop implementation plans and processes to handle complex cases.

Problem #2: There is a gap in care for patients with complex needs due to an incomplete service continuum and lack of continuity of care (case management and integrated health homes). Individuals are stuck at a higher level of care due to lack of services and a lack of provider willing to accept patients with complex needs.

Through the Mental Health and Disability Service Redesign, Regions have been tasked with building a service system that closes the service gaps through the development of Evidenced Based Practices, Core Services and Additional Core Services as funding is available. Building the service continuum is imperative for individuals with complex needs to be discharged from higher levels of care than is necessary and works towards individuals receiving appropriate services.

Goal: Build the service continuum and increase the continuity of care by having MHDS regions utilize current resources and braiding funds to build a comprehensive, full array of services.

C. Regional Strategies to show improvements in the Outcomes for Success as identified by the Department of Human Services

| Desired Outcome for Success | | | | | | | | | | | | | | | | | | | | | | | | |
|---|-----------------------------|--------------------------|---|------------------------------------|-------------------------|----|--|---|---|---|-----------|-----------|---|-----------|------------------|-----------------|-----------------|-----------------|----------|--|---|---|---|--|
| 1. The number of individuals who are in the emergency department over 24 hours because mental health, disability, or substance use disorder services are not available. | | | | | | | | | | | | | | | | | | | | | | | | |
| Regional Strategy, Timeframes, and Financial Resources | Anticipated completion Date | Projected Cost to Region | Outcome Indicators for Delivery of, Access to, and Coordination and Continuity of Services for those with complex needs | Process Indicators/Assessment Tool | | | | | | | | | | | | | | | | | | | | |

4.Desired Outcome for Success:

The number of individuals involuntarily discharged from their community based mental health, disability, or substance use disorder provider without a new community based provider in place. This includes, individuals discharged to jail, homelessness, or hospital that are not returning to services with their current provider.

D. Plan for Regional Fund Balance Spend Down

The Northwest Iowa Care Connections Governance Board has identified the following priorities for funding to address the needs of individuals seeking services within our counties, including those with complex needs, whose specific estimated costs have been pro-rated in the projected costs in the tables above.

| List new service investments with time frames for implementation. | Projected Costs |
|---|------------------------|
| Mobile Crisis Response July 2017 with Pilot Project Oct 1, 2017 and full region-wide implementation by January 2018. 24 Hour Crisis Line Access included in this cost | \$ 512,000 |
| Assertive Community Treatment (ACT) includes start-up costs and direct service dollars for regionally funded individuals. Startup February 2016-October 2016 Amended contract for 6 additional months for startup (October 2017 –April 2018) Fee For Services October 1, 2017 | \$ 304,888 |
| Peer Support Network January –June 2018 Pilot Project with option for continued services | \$ 95,195 |
| Transitional Housing- Exploring options for contracting July 1, 2017-December 2017 | \$ 190,800 |
| Jail Release Care Coordination November 2017 | \$ 104,189 |
| Sub-Acute Option Explored through Contracting July 1, 2018 (estimated) | \$ 121,000 |
| Substitute Decision making Option November 1, 2018 | \$ 2,000 |
| Additional Crisis Residential Bed Usage (per contract with Sioux Rivers and Pains Area MHC October 1, 2018 | \$ 48,000 |
| Additional Training (C-3 De-Escalation, Motivational Interviewing (part 2) Stages of Change, Positive Behavior Supports (Part 2) Assessment, Persons Centered Planning with Health Days emphasis January 2018 Other trainings to be determined based on complex needs. | \$ 50,000 |

In addition, the Northwest Iowa Care Connections' Governance Board has discussed options to lower per capita levies to a standardized rate in FY 19 but has not made a formal decision on this. Please see Appendix B for the proposed plan. The NW IA Care Connections Board will be monitoring actual expenditures along with developing services costs to determine the recommended per capita levy amount to regional counties in upcoming year to comply with fund balance target to 25% by 2020 as directed in Senate File 2315.

Appendix A.

The following individuals were invited to participate in the Stakeholder Workgroup Meetings to provide input into the development of this Community Service Plan. Meetings were held at the O'Brien County Courthouse Assembly Room.

(* denotes the participants attendance for workgroup meetings held July 25th, August 29th and September 13th)
