40: MENTAL ILLNESS: *An individual who has had at any time during the preceding 12-month period a mental health, behavioral, or emotional disorder or, in the opinion of a mental health professional, may now have such a diagnosable disorder. The diagnosis shall be made in accordance with the criteria provided in the most recent Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association and shall not include the manual's "V" codes identifying conditions other than a disease or injury. The diagnosis shall also not include substance-related disorders, dementia, antisocial personality, or developmental disabilities, unless co-occurring with another diagnosable mental illness. (Iowa Administrative Code 441-25.16 (331))*

42: INTELLECTUAL DISABILITY: persons who meet the following three conditions:

1. Significantly sub-average intellectual functioning: an intelligence quotient (IQ) of approximately 70 or below on an individually administered IQ test (for infants, a clinical judgment of significantly sub-average intellectual functioning) as defined by the Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, American Psychiatric Association.
2. Concurrent deficits or impairments in present adaptive functioning (i.e., the person's effectiveness in meeting the standards expected for the person's age by the person's cultural group) in at least two of the following areas: communication, self-care, home living, social and interpersonal skills, use of community resources, self-direction, functional academic skills, work, leisure, health, and safety.
3. The onset is before the age of 18.

(Criteria from "Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM IV)," 1994 Revision American Psychiatric Association) (Iowa Code 4.1(9A))

43: OTHER DEVELOPMENTAL DISABILITIES: People with developmental disabilities have severe, chronic disabilities which **meet all of the following criteria:**

- A. Is attributable to mental or physical impairment or a combination of mental and physical Impairments.
- B. Is manifested before the person attains the age of 22.
- C. Is likely to continue indefinitely.
- D. Results in substantial functional limitations in three or more of the following areas of major life activity: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency; and
- E. Reflects the person's need for a combination and sequence of special interdisciplinary, or generic services, individualized supports, or other forms of assistance that are of lifelong or extended duration and are individually planned and coordinated.

A person from birth to the age of nine, inclusive, who has a substantial developmental delay or special congenital or acquired condition may be considered to have a developmental disability without meeting three or more of the criteria described above if the person, without services and supports, has a high probability of meeting those criteria later in life. (Iowa Administrative Code 441-24.1(225C))
